### **Director Report**

Adele presented a bill for \$1400 for Book Ends purchased from another library. Discussion was held regarding disposition of books from the booksale. United Way and the prison did pick up some boxes and others were taken to Goodwill. She spoke to libraries at Amherst and Avon Lake who use Better World Books. Contract requires donator to scan each book to determine if BWB will accept the donation. Consensus was that was not something we had the manpower to do for the small amount of money returned. We will continue to explore options; however, the bottom line is the books must not be returned to the storage shed after the sale.
